a comprehensive practical introduction to one of the most important new trends in manufacturing globally
the delivery of a service component as an added value when providing products servitization is all the rage
in the manufacturing sector around the world yet despite the clear competitive advantage of servitization
most manufacturers remain reluctant to venture into what for them is a strange new world written by a
team of internationally respected servitization experts and innovators this book provides you with a
detailed road map for successfully navigating the servitization terrain unlike most authors on the subject
who merely sing the praises of servitization baines and lightfoot provide you with a framework for
accessing the feasibility of adopting a services led competitive strategy in your company along with
strategies for designing and implementing the kinds of service offerings customers increasingly are
coming to expect grounded in real world practice and supported by a wealth of up to the minute research
this book helps ease the way for manufacturers considering adopting a servitization model shows how to
exploit your company s manufacturing competencies to build a strong servitization element without

becoming just another services company provides numerous illustrations and examples of services led competitive strategies with an emphasis on the advanced services most widely associated with servitization worldwide packed with fascinating and instructive case studies from leading manufacturing firms across industry sectors including caterpillar rolls royce alstom man xerox and others
